

ENGINEERED FOR SPORT

SPARTAN

GARMENT

[NEW for '07] Outerwear>Jackets>Reflex Jacket

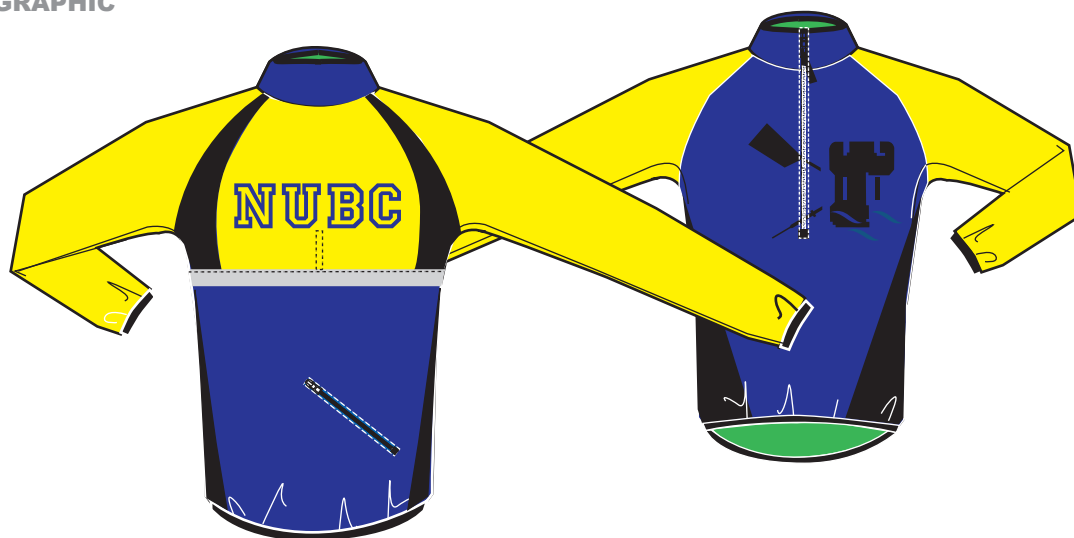

CONCEPT

- Performance-orientated 'hardshell' constructed specifically for the rowing action
- Technical design suitable for in-boat use plus cross-training *ie* running / cycling
- Engineered to protect the upper body from the elements [wind > rain > cold] without 'overheating'
- Utilises the next generation of technical *stretch* waterproof fabrics [superseding the traditional gusseted shoulders] to allow unrestricted movement
- Works as an **outer** layer [designed to be worn in conjunction with a **base** and / or **mid** layer]

waterproof body panels

CONSTRUCTION

- Anatomically-cut **close fitting body profile** helping to eliminate 'snagging' at the end of the stroke
- Windproof / waterproof / breathable **microfibre** outer shell offering an efficient and durable barrier against the elements
- [NEW fabric for '07] **STRETCH** waterproof contoured front / shoulder panels allowing maximum freedom of movement
- Full AIRTEX mesh lining [body and sleeves] allowing **4** season use by improving internal air circulation
- Comfortable / quick-drying / thermal **microfleece** collar lining
- High-fitting collar offering additional elemental protection
- Seamless 'watershedding' shoulders providing maximum protection against the rain
- Extra-long 30<36cm YKK® heavyweight zips allowing easy removal plus improved ventilation control
- Concealed back vents offering additional ventilation plus improved internal air circulation
- Extended sleeves resulting in a better fit when stretching forward at the catch
- Durable Supplex® bound cuffs and waist
- Anatomically-cut differential hem with longer curved back [offering valuable protection to the vulnerable lumbar region] and cropped front improving the in-boat fit
- Useful 'stuff' pocket - positioned diagonally on lower back [for easy access] - with 18cm YKK® heavyweight zip closure
- Durable twin-needle stitching helping to resist seam wear

CUSTOMISING
